Making energy metabolics cozy. Lez lonely
 like some loose baquet. KP. claims she sleeps
 holding a rose quartz because 'it's supposed to
 help you find love and heal your heart',
 'I carry my crystals with me, which some
 people might think is odd but it works for me,'
 VB.

Gut feelings.
It is a non-significant negative score gained
through random guessing.
SOUND [Hot pants rock 'n roll]
SOUND [filtered music from transistor
radio]

They are diggin' crystals on the Badubotron tour. The vintage Rhodes 73 piano just pops on by itself in an evocative manner. They are almost sure that it's haunted.
